TABSCHOOL – DIGITAL LEARNING SYSTEM

HOME

WELCOME TO TABSCHOOL

'Go digital' is the unequivocal mantra of today's technology oriented world. Everything, from day-to-day chores to complex scientific experiments, is performed with nanosecond precision using digital tools and equipment.

The field of education is no exception. In fact, it has the highest potential to benefit from this sweeping digital revolution.

WHO WE ARE

We are a pioneer in the digital learning field with an experience of over 10 years of imparting high-quality digital educational programs. We specialize in creating hi-tech yet easy-to-learn and use educational software for the modern-day kids and youth.

ABOUT US

We launched Tabschool with the clear-cut vision of creating an efficient and sophisticated digital learning environment for modern-day learners and teachers alike. The central idea is to enable students to learn with ease and speed using highly sophisticated digital tools and technologies.

Our goal is to provide a robust digital learning platform to our students in an environment they are already familiar with. We facilitate free, open, and seamless sharing of information and knowledge without the constraints of physical location, age, or any other limiting factors.

OUR VISION

In the rapidly evolving edtech sphere, Tabschool is a pioneer in providing high-tech digital tools to impart technology-based education to learners. The main benefactors are the modern-age companies, educational institutions, and individuals with a futuristic mindset.

We offer an efficient learning environment to empower learners from all walks of life to aquire knowledge about any subject of their interest in the most enjoyable and intuitive way.

WE STAND APART

Many companies in the edtech market are playing their part in the digital revolution in education. However, most of them are focused on offering administrative solutions to companies and educational organizations.

We stand apart as we focus on providing an efficient learning system to improve their learning ability and overall educational performance.

In a nutshell, Tabschool is a sincere attempt in the ever-evolving field of edtech, to carry the torch forward and illuminate the minds of all the knowledge-hungry learners with the help of advanced digital technology.

SERVICES

A SOCIAL LEARNING ENVIRONMENT

We learn best in a collaborative environment with like-minded learners. Digitalized education can become an isolated learning experience if the social factor is not integrated into it.

Keeping this in mind, we offer a 'social' learning environment to boost students' performance on all levels. Learners can easily interact with each other and share information instantly, thus making it a richer and more satisfying learning experience for them.

HIGH-TECH, USER-FRIENDLY INTERFACE

All our systems are developed in close conjunction with the experts in the field of education as well as the end-users. This ensures that the learning platform stays highly efficient and competent in meeting the complex edtech challenges, while, at the same time the interface remains simple and user-friendly so that anyone can use it with ease.

REAL-TIME LEARNING ANALYTICS

Sophisticated features like real-time learning analytics offer valuable insight into the overall performance of a learner. It can help precisely gauge various psychological factors and issues including the true orientation and motivation of a student, their learning habits, what appeals to their taste and what turns them off and so on.

This insight can be used to provide timely feedback and suggestions for improvement. This enables us to provide a unique personalized or adaptive learning system that is truly an important advantage to the students and teachers alike.
